Dear Port and Dan:

I finally found the time to order the pictures I had taken this summer. Unfortunately, they did not turn out too well, but the two of you, I took at the end of the trip, are quite nice.

I have often thought of you and hope that you still remember me. I would love to have Dan's book on the war and would like to send it to you for your autograph, if Dan will promise to sign it. I have lost the address in California you gave me and can only hope that the one on the trip list is still valid.

I would love to hear from you; you have been such good company on the trip.

Affectionately
V. C.
